PROFESSIONAL SUMMARY

Full Stack Developer with nearly 3 years of professional experience building scalable web and mobile applications across multiple business domains. Proficient in React.js, Next.js, React Native, Node.js, TypeScript, PostgreSQL and modern software engineering practices. Experienced in REST API development, real-time applications, payment gateway integration, Firebase services, authentication and authorization, state management, database design and production deployments. Passionate about delivering performant, maintainable and user-centric software solutions.

CORE COMPETENCIES

Full Stack Development, Frontend Development, Mobile Application Development, React.js, Next.js, React Native, Node.js, REST API Development, Payment Gateway Integration, Real-Time Applications, Authentication and Authorization, Firebase Services, Socket.IO, Database Design, State Management, API Integration, Performance Optimization, Software Architecture, Production Deployment, Responsive Web Applications, Cross Platform Development.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Vite
Mobile	React Native, Expo, Expo EAS Build
Backend	Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication, Firebase, Zod
Database	PostgreSQL, MongoDB, Prisma ORM
State Management	Redux Toolkit, MobX, MobX State Tree, Zustand, TanStack Query, SWR
Tools	Git, GitHub, Axios, Storyblok CMS, Mapbox, Firebase, Expo EAS Build, Figma

PROFESSIONAL EXPERIENCE

Application Developer Mannai Tech, Bahrain	Sep 2023 – Dec 2025
--	---------------------

- Architected scalable web applications and administration dashboards using React.js, Next.js, TypeScript and Tailwind CSS.
- Engineered reusable UI components supporting pagination, filtering, sorting and responsive layouts across multiple business modules.
- Delivered cross-platform mobile applications using React Native, Expo and Expo EAS Build for Android and iOS platforms.
- Integrated REST APIs and managed complex application state using Redux Toolkit, MobX, MobX State Tree and Zustand.
- Executed Firebase Authentication, Google Sign-In, Firebase Cloud Messaging and Mapbox-powered real-time location tracking implementations.
- Enhanced application performance through lazy loading, optimized API handling and efficient rendering strategies.
- Partnered with backend developers, QA engineers and designers to deliver production-ready software solutions following modern development practices.

Frontend Developer Mannai Tech, Bahrain	Apr 2023 – Sep 2023
---	---------------------

- Built responsive and interactive user interfaces using React.js, JavaScript, HTML5 and CSS3.
- Collaborated with cross-functional teams to deliver new business features and maintain existing production applications.
- Improved code maintainability through reusable frontend components and scalable design patterns.

PROJECTS

White House Laundry

<https://www.whitehouselaundry.com/>

- Engineered a multi-platform laundry management ecosystem supporting Customers, Drivers, Retail Stores, Warehouses and Administrators across web and mobile platforms.
- Delivered scalable React.js and React Native applications featuring real-time order management, live delivery tracking and push notifications.
- Integrated Firebase Authentication, Google Sign-In, Firebase Cloud Messaging, REST APIs and Mapbox-powered driver tracking capabilities.
- Applied Redux Toolkit, MobX and MobX State Tree to manage complex business workflows spanning multiple application modules.
- Configured production-ready Android and iOS deployments using Expo and Expo EAS Build while improving performance and maintainability.

SNASS Corporate Website

<https://sarensnass.com/>

- Built CMS-driven corporate websites using React.js, Tailwind CSS and Storyblok CMS.
- Streamlined content management workflows while improving responsiveness, SEO readiness and frontend performance.

Hardcastle Advisory

<https://hardcastleadvisory.com/>

- Produced responsive corporate websites using React.js, Tailwind CSS and Storyblok CMS.
- Enhanced content delivery and user experience through reusable components and scalable frontend architecture.

Full Stack E-Commerce Platform

<https://github.com/Anif23/e-commerce>

- Architected a production-ready full stack e-commerce platform using React.js, Node.js, Express.js, PostgreSQL and Prisma ORM.
- Integrated secure JWT authentication, PayPal payment gateway services and complete order lifecycle management workflows.
- Designed real-time notification systems using Socket.IO to synchronize customer and administrator order updates.
- Leveraged TanStack Query and Zustand for efficient server-state management, caching and client-side synchronization.
- Built scalable REST APIs featuring secure validation and optimized data handling practices for high-performance user experiences.

EDUCATION

Master of Computer Applications (MCA)

2020 – 2022

Anna University

Bachelor of Computer Applications (BCA)

2017 – 2020

Manonmaniam Sundaranar University
